Dear Mr. Lundahl:

I appreciate very much the excellent briefing you presented to the Committee on May 28. For many of your friends it was a matter of being brought up to date. But it was obvious that you had prepared new material tailored to the subject at hand and we all found the information very helpful.

Your explanation and your illustrations showed us the vast experience that you and your colleagues have acquired over the years. We were very glad to have the opportunity to hear someone so obviously expert as yourself.

Please accept my thanks on behalf of the Committee for the considerable time and effort that went into your excellent statement.

Sincerely,

John J. McCloy
